Professional Summary

After graduating with a degree in **Business Administration**, I decided to pursue my passion for programming. I enrolled in a coding bootcamp and learned **full-stack web development**. *My favorite part of programming* is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem. My core stack is **React, Next.js, Node.js, Nest.js, and MySQL along with Typescript and Prisma**. I am also familiar with DevOps in AWS and Google Cloud. I am always looking to learn new technologies. I am currently looking for a **full-time position** as a software developer.

When I'm not coding, I enjoy playing video games, watching movies, and playing with my cats cat **(Guts & Taco)**. I also enjoy **learning new things**. I am currently learning about **history for example French Revolution**.
